

Contemporary Bookbound Overlays

Notes on Overlays

Displayed below are the overlays available for A3 and A4 sized Contemporary Bookbound style of album. If you are ordering parts to construct your own album or if you require me to design your album but you have a preference for certain layout options, please add them to the notes on the order or enquiry forms.

The reference number for the overlay option is given in bold (e.g., **A3 003**), along with the associated aperture sizes, below each figure.

You can choose to buy your own overlays or choose my make-up service when purchasing from my web site, where I will either do everything or nothing towards your actual album design and build. Should you need anything in between these two extremes, you should contact me through my website at <http://www.chasingrays.co.uk/wpsite/contact/> for a bespoke service and quote.

In all cases except designing and building your own album, a layout design will either be sent or placed in your download account for your approval before proceeding with any work.

I understand that this process can range from being very easy to very complicated to complete, so please feel free to contact me at any time to discuss any problems, either via the details above or through my website at <http://www.chasingrays.co.uk/wpsite/contact/>.

Additional Options

Bespoke designed overlays are available for an additional charge. Please contact me as above.
